

QUALITY POLICY

The **management of ANGIONAUTIX** has approved this **Quality Policy**, which is intended to serve as a guide for how our organization and all its members develop and manage all activities, responsibilities, and relationships, based on meeting the needs and requirements of our clients and users.

For us, it is essential to ensure good professional practices by providing products and services that meet their intended use, as well as the requirements and specifications of our clients and other stakeholders. Therefore, we must understand quality as a fundamental strategy for achieving and sustaining this. **At ANGIONAUTIX**, we consider the following as our mission and core values:

- The continuous improvement of the quality of our products and services.
- The satisfaction of our customers and stakeholders, integrating dialogue and understanding with our stakeholders into our governance strategies, as well as incorporating their requirements and expectations into our objectives as a fundamental pillar of our mission, vision, and values.
- The evolution of our processes towards sustainability within the scope of application, seeking measures, guidelines, and ways to mitigate the organization's impact on climate change.
- Patient safety and specialist training as a top priority in the use of all the organization's products and services.

As part of the commitment and leadership of the **MANAGEMENT of ANGIONAUTIX**, dedicated to the **COMMERCIALIZATION AND TECHNICAL SUPPORT SERVICE OF MEDICAL, SURGICAL, AND ORTHOPEDIC PRODUCTS AND EQUIPMENT**, the necessary resources, responsibilities, and mechanisms have been allocated for the proper implementation, development, and commitment to the continuous improvement of a **QUALITY MANAGEMENT SYSTEM**, aligned with the requirements of the **ISO 9001:2015 international standard**.

Our **QUALITY MANAGEMENT SYSTEM** is designed and implemented through specific actions defined in policies, procedures, controls, and established measures, with the following main commitments:

- Quality and its improvement are the responsibility of all members of **ANGIONAUTIX**, starting with the Management.
- Quality is achieved by planning, executing, reviewing, and improving the Management System, always considering the context of **ANGIONAUTIX**, both internal and external.
- Quality is oriented towards the satisfaction of all our stakeholders through the commitment of all **ANGIONAUTIX** members to meet their needs and requirements, as well as legal and regulatory requirements and those specific to our products and services.
- The quality of our products and services is based on the effectiveness of the Quality Management System, where error prevention is a fundamental aspect, always striving for the continuous improvement of our management system.
- Quality leads us to pay maximum attention to technological advancements and potential improvements that new technologies may offer us.
- Quality requires the participation and collaboration of everyone; therefore, this Policy is communicated to all **ANGIONAUTIX** personnel for their knowledge and understanding.

To achieve these commitments, we have designed and approved specific objectives that are measured and evaluated periodically.
